

## APARTMENT HOUSE FIRE ROUTS SIXTY TOLEDO FAMILIES

One Man Dies, Three Firemen Injured Seriously In Midnight Blaze.

BLAME INCENDIARY FOR OTHER FIRES

Total Loss Estimated At \$750,000 Investigation Is Started.

Toledo, Dec. 27.—Toledo's most pretentious apartment building, the Del-Mar, housing 60 families, is but a mass of smoldering ruins today, following a fire which broke out just before midnight and continued for hours, requiring the use of practically every piece of fire fighting equipment, resulting in the death of W. A. Faunce, 55, the injury of three firemen and minor injuries to a score more.

The loss was estimated at \$500,000. The fire started from an overheated boiler in the basement.

Six other fires during the early morning and last night brought the loss to more than \$750,000.

A number of the fires are believed to have been of incendiary origin, and police and fire authorities today began an investigation.

While firemen were fighting the blaze which destroyed the Del-Mar, calls were received from various parts of the city and men were dispatched to cope with these also.

The lives of both firemen and tenants of the Del-Mar were endangered by constantly recurring gas explosions, as the flames reached the supply pipes running to apartments. Officials of the gas company could not be reached to shut off the main supplying the building and each explosion added new fuel to the flames and made the wreckage more complete.

Faunce, broker, died in a hospital early today from burns received when he was trapped in his room at the Del-Mar. Just as firemen were battering in the door to rescue him, an explosion of gas occurred that burned him severely. Three of his rescuers were burned severely in this explosion.

Fire department officials said that never in the department's history have worse fires occurred during one night. All are blamed on incendiaries.

## TALK ON EVOLUTION GIVEN BY STUDENT

Subject Is Discussed By Brooks Emery At Rotary Meeting.

Discussion of the subject of evolution by Brooks Emery, son of Rotarian F. J. Emery and a Junior in Princeton university, given Tuesday noon before the Rotary club in the Elks home, was presented in one of the most interesting addresses ever heard at Rotary luncheons.

Geographical, biological, religious and scientific developments in evolution were recalled by the speaker in interesting and enlightening fashion and he concluded by declaring that evolution is playing an important part in present social, political, religious and physical developments. Evolution is gradual, he said, and because of this the L. W. W. and other radical theories cannot be successful now.

Next Tuesday all committees will give reports of the work they have accomplished since last April. H. A. Greiner will be chairman of the meeting. President Alan announced these Rotarians would be in charge of future meetings: Jan. 9, Dr. A. J. Hill; Jan. 16, Grant Hill; Jan. 23, S. C. Jes-6, H. P. Lowell; Feb. 13, D. E. Mather; Sup. Jan. 20, R. A. Lamont, Jr.; Feb. 26, W. H. Matthews; Feb. 27, R. S. McCulloch.

## CONTINUE SEARCH FOR MEMBERS OF MISSING TUG CREW

Lifeboat Containing Frozen Body Of One Man Found On Canadian Shore.

Cleveland, Dec. 27.—While search was continued today for the seven missing members of the crew of the tug Cornell, which left here last Thursday bound for Buffalo, hope of finding any of them had been abandoned with the finding of the missing lifeboat on the Canadian shore containing the frozen body of Michael Paytosh, a fireman on the ill-fated craft.

The tug listed with port authorities as missing, will probably be transferred to the lost list today.

Capt. Thomas W. Gould, United States hull inspector here, said that an official investigation would be begun as soon as the last hope for the tug and its crew had been given up. It is thought that a boiler explosion may have sent the tug and seven members of the crew to the bottom, but how Paytosh alone was found in the lone lifeboat has not yet been ascertained of the fate that befell its fellows.

The Cornell had been sold to Syracuse, N. Y., parties, who had planned to put it into trade on the New York barge canal.

London, Dec. 27.—Twenty-eight lives have been lost and five ships destroyed in gales which have been sweeping the British coasts for 48 hours.

Tremendous property damage was done.

Rural districts reported heavy loss of life among livestock.

Streams were flooded and bridges washed away.

## HARRY MATZ PAYS \$500 LIQUOR FINE

Coscareo Enters Plea Of Not Guilty To Resisting An Officer.

Harry Matz, 68 Jennings ave, proprietor of the White Front cafe, Main st., paid a fine of \$500 and costs when he pleaded guilty Tuesday afternoon to a charge of possessing liquor illegally, before Mayor Albert W. Ferren at East Palestine.

Matz was arrested Monday night by Chief of Police Walter Warren of East Palestine after a five gallon jug of moonshine was confiscated in his home. With the costs Matz paid \$531.20.

James Coscareo, part owner of the Union hotel, Roosevelt ave., entered a plea of not guilty to charges of interfering with resisting and obstructing an officer. He was released on bond for his appearance before Mayor Ferren Thursday morning at East Palestine.

A plea of not guilty to charges of possessing liquor was entered by Lou Zellars, arrested at his home in Calcutta Monday evening. He was released on bond for appearance Thursday morning.

## Faces Trial Today For Keeping Booze

Tony Delandro, Washingtonville, will face Mayor Stoffer of that village late this afternoon on a charge of illegal possession of liquor.

Delandro was arrested Dec. 16 when prohibition agents visited his home, confiscating a quantity of whisky and arresting two others on charges of carrying concealed weapons.

Delandro entered a plea of not guilty to the charge at a preliminary hearing and was released on bond of \$1,500 for his appearance today.

## Dr. Coue Coming To Auto-Suggest Happiness To Us

Day By Day Men And Wives Will Be More Content, Is His Message.

Cherbourg, France, Dec. 27.—Day by day, in every way, the American people are going to be getting better and better, if there is power behind the mental message flashed to the United States today by Dr. Emil Coue, famous French exponent of auto-suggestion, who sailed for New York on the liner Majestic.

Before boarding the liner Dr. Coue gave the following message to International News Service for the American people:

"I will auto-suggest happiness to the healthy people of America as well as health to the sick and afflicted. I will auto-suggest that the married couples not only be content to live happily together but that they give joyousness to all about them. I will auto-suggest that business men and statesmen serve not only dutifully, but enthusiastically and that all live so that their lives will be filled with happiness."

Dr. Coue, whose home is in Nancy, came into international prominence during the past year by his method of treating ailments with auto-suggestion. Large numbers of ailing persons from all parts of the world have visited him for treatment. He said that he was looking forward to his trip to the United States with keen interest and plans to visit a number of cities.

It is anticipated that the famous French physician will be flooded with applications from persons seeking his treatment.

## Salem Company Will Remodel Jury Room

Lisbon, Dec. 27.—The Salem Hardware company was the only concern to file a bid with the county commissioners this week for remodeling the jury room. The company will do the work on a bid of \$1,389. The estimate was \$1,500.

Bids for this job was opened once before, but they were above the estimate and the job could not be sold.

## PICTURE SHOW PROFITS GREAT AID TO SCHOOLS

Supt. Alan Reports Profits Of More Than \$8,600 Since April, 1920.

J. S. Alan, superintendent of schools, informs The News that he asked at various times by citizens what profits have been made by the pictures during the time they have been exhibited in the auditorium. He says that this is a natural question, and that while the board of education is informed continually as to the results, no specific information has been given the public for some time and he offers the following:

Each show is reported to the board as a separate item, giving receipts and expenditures. From those reports at irregular intervals statements are made and profits paid to the board. From these statements are taken the following figures as of Nov. 1, 1922.

Profits on picture shows, April 8, 1920, to Sept. 30, 1921, \$6,193.93; Sept. 30, 1921, to March 31, 1922, \$1,020.83; March 31, 1922, to Nov. 1, 1922, \$1,442.36. Total profits, \$8,656.22.

Paid to the board of education, \$5,884.82; paid to others and reported to board, \$260.93; funds in bank Nov. 1, 1922, \$2,510.47. Total, \$8,656.22.

While the schools would not have to be closed if these funds were not available, it is nevertheless true that the picture show profits make it possible for the board of education to do many things for the schools that otherwise would have to be neglected. As an example, during the last summer the interior of every public school building except the High school was decorated for the first time in several years. Other repairs and purchases have been made from these funds, thus saving the taxpayers many dollars.

## Entire Village Is Saddened By Girl's Death In Flames

Friends Who Fought Flames In Washingtonville Home And Provided Shelter For Parents And Seven Children, Crowd Church For Victim's Funeral.

Christmas, the time when joy and happiness reigns supreme in the hearts of girls and boys.

The time when all sorrows are forgotten in the joy of playing with the new toys and opening packages, found beneath the Christmas tree.

But not so for Mary Dicken, aged 13, of Washingtonville.

Christmas meant for Mary nothing but grief and sorrow. For Martha, twin sister of Mary and her inseparable companion through their twin lives, was unable to enjoy with her the usual Christmas happiness.

Martha in her eagerness to build a fire in the kitchen range early Sunday morning, poured oil on the flames, smoldering fire. The oil exploded and Martha died from the horrible burns in the hospital later.

Tuesday afternoon the Methodist church at Washingtonville was crowded with sorrowing friends and neighbors, the same friends and neighbors who turned out early Sunday morning to help fight the flames which destroyed the home of Mr. and Mrs. C. H. Dicken and their seven children, this time to extend a last word of comfort to Martha's parents and her brothers and sisters.

Rev. C. Davis, pastor of the church, conducted the funeral service for Martha, whose body was interred in Oakdale cemetery.

Mary and Martha were one of two sets of twins in the Dicken family. Lyda and Elva, the oldest children, day morning, poured oil on the flames, smoldering fire. The oil exploded and Martha died from the horrible burns in the hospital later.

Friends and neighbors provided shelter for the family when their home was destroyed.

## Men And Women Flee In Terror Of Wild Gunman

Policeman's Bullet Fells Negro Who Runs Amuck In Steubenville.

Steubenville, Dec. 27.—M. C. Padden, Johnstown, Pa., negro, ran amuck in the negro quarter early this morning, firing a revolver as men and women fled in terror.

It was not until Officer William Hawkins appeared and shattered Padden's hip with a bullet that he was subdued. Many persons had a narrow escape from being shot. Windows in several homes were shattered by bullets.

Padden is alleged to have wrested the gun from George Burnwell, a pool room proprietor following an argument over liquor. He began shooting in all directions and pandemonium reigned in the vicinity. Padden killed everybody and fired bullets at every person who was in the open.

Patrolman Hawkins appeared on the scene and drawing his revolver ordered Padden to surrender. Hawkins was greeted with a shot that grazed his head. The officer then opened fire on the crazed negro and sent him sprawling with a bullet in his hip.

Padden is in a hospital and his left leg will be amputated.

## FRANCE REJECTS FOUR POWER PACT

Washington, Dec. 27.—France's pre-emptory refusal to consider entering into a four-power treaty with Great Britain, Italy and Germany designed to keep the peace of Europe and preserve existing boundaries for 30 years definitely ends the project, in the opinion of administration officials who have been in close touch with the matter.

The proposal originated with Germany, and at the request the American government merely undertook to lay it before the French government in a purely informal way, for the reason that Germany herself "is making no proposal to France at this time," as one official expressed it today.

The United States had no interest in the matter other than being helpful in attempting to find a solution for the present critical state of European affairs. Of more significance, however, than France's summary turn-down of the proposed treaty is the increasingly apparent fact that the United States government today is acting as an unofficial clearing house for suggestions for European relief.

Miss Erma Hoopes, Franklin ave., left Tuesday evening for Davenport, Ia., where she has accepted a position with the Y. W. C. A. Miss Elizabeth McKee, Wheeling, W. Va., was the guest of Miss Hoopes Sunday and Monday.

## Pasteur's 100th Birthday Is Celebrated Today

Editor's Note—Here is the first of a series of articles prepared by Rev. H. H. Scott, pastor of the First M. E. church, on the life and works of Louis Pasteur. They are presented with the idea that on the 100th anniversary of his birth the public give more thought to health and physical care and to reveal the wonderful strides made in the care of the body.

Louis Pasteur was born 100 years ago today, Dec. 27, 1822.

In Baltimore in March, a great Pasteur centennial will be held. The greatest bacteriologists of the world will make addresses.

The world is still unconscious of the greatness of this man. His service to humanity can scarcely be overestimated. Some think his contribution to human welfare stands first in science. It is easy to think so. Hundreds of millions of lives have been lost in epidemics. Scourges, affecting large masses of humanity and depopulating immense areas of the world, were frequent even in the memory of the present generation. Of the real cause, little was known 50 years ago. Whole continents mourned, for these plagues were fatal from the onset, and resistance was useless.

## FORMER OFFICIALS JAILED IN PROBE OF KIDNAPING CASE

Prosecutors Promise Score Of Men Must Answer For Double Crime.

Mer Rouge, La., Dec. 27.—With two former officials of Morehouse Parish behind prison bars in connection with the kidnaping and murder of Tom Richards and Watt Daniels last August, citizens of this section were waiting stolidly today for the axe to fall again.

Department of justice agents who for months worked to uncover the evidence on which the state of Louisiana will seek to convict men for murder have promised that nearly a score of men eventually would answer for the crime they uncovered in the waters of Lake La Fourche.

The men already locked up are T. J. Burnett, a former deputy sheriff and a man of high standing in the neighborhood of speaker, where he lives, and Dr. B. M. McKern, former mayor of Mer Rouge, who was arrested in Baltimore. That other arrests may be expected momentarily is naturally the consensus of opinion here.

Other arrests have been promised and they are expected to be made just as soon as the men show signs of nervousness or when the authorities believe there is no need of waiting further.

The coming of Adjutant General Tombs, commander of the state's guardsmen and Attorney General Cocco's decision to return meant to townspeople today that other arrests are quite imminent and they are prepared to witness imprisonment of the last of the suspects, although one of them is said to have removed to Texas.

## Deny "Divine Sarah" Bernhardt Is Dying

Paris, Dec. 27.—A report circulated in the United States that Mme. Sarah Bernhardt, famous French actress was dying, was formally denied today.

"It is impossible to understand how such a rumor could have arisen," said Mme. Bernhardt's secretary. "In fact Mme. Bernhardt was able to sit up today for the first time since her recent illness. She has suffered no relapse. She is improving and will be able to receive her friends on New Year's day."

The prisoners are Jim Caverty, 35; his wife, 35; George Wilson, 25, and his wife, 24 years old.

## STATE TO PERMIT USE OF OLD JAIL 8 MONTHS LONGER

Ban On Present Building At Lisbon Is Lifted Until Sept. 1.

ACTION EXPECTED IN THE MEANTIME

Several Courses Open Says Letter From State Department.

Lisbon, Dec. 27.—A supplementary order has been just issued by the Department of Industrial Relations of Ohio, permitting the use of the county jail until Sept. 1, 1923. However, the department in the meantime will insist that the county commissioners do something to improve jail conditions in this county.

A previous order if the department forwarded to the commissioners demanded that the use of the present county terminate Jan. 1, 1923, but since the department was notified that the bond issue to build a new jail failed to carry at the November election, the department then addressed the following letter of recent date to the commissioners:

"This is to advise you that the provisions of Miscellaneous order No. 1386 which was issued Aug. 24, 1922, will be held in abeyance until Sept. 1, 1923.

"We trust that in the meantime your board will take the necessary action looking toward compliance."

In reply to a letter sent the department by the commissioners advising that the jail bond issue failed of its purpose, the department advised the commissioners as follows:

Department's Views  
"Your letter of Nov. 27 at hand, and in order that you may understand the attitude of this department, county jail, I am inclosing a letter addressed to your board on Nov. 22.

"While in Lisbon, I had a brief conference with County Auditor Charles E. Hamilton, with reference to the order, and it is probable that your board will be in touch with Mr. Hamilton in the near future. If so, he will probably bring out the points made in our conference.

"In compliance with your letter of Nov. 27, I am instructing our inspector William Tellow, to visit the Columbiana county jail, for the purpose of making such recommendations as may be necessary to temporarily place this building in the best condition possible.

"Mr. Tellow is advised to also confer with your board when he visits Lisbon."

And again the department at Columbiana has written the commissioners: "We have been advised that the bond issue for a new county jail for Columbiana county was defeated at the recent election.

Several Courses Open  
"In glancing over the provisions of the above order, we are impressed with the fact that conditions at this jail cannot be further tolerated, and that the necessity of action on the part of the board of county commissioners is apparent.

"We presume that you are aware of the fact that we have full authority. (Continued on fourth page.)

## OFFICER IS FOUND LYING IN DITCH

Police Say White Was Hit But Witnesses Give Another Version.

Otis S. White, 93 Green st., acting as merchants' police for a number of Salem merchants, was found lying in an alley between Broadway and Depot st., about 6:30 p. m. Monday, it developed today.

White is alleged to have been in a drunken condition, according to persons who discovered him lying in the alley. He had a severe cut over one eye and his clothing was covered with mud.

William Raffle, a boarder at the home of Thomas Kropps, 105 Depot st., discovered White lying in the alley in a semi-conscious condition and a member of the Krepps family notified police headquarters that a man was lying in an alley there and asked that they come down and get him. It was stated by Mrs. Krepps.

After a long interval of waiting the police were notified a second time, this time that one of their officers was lying drunk and within a short time the police patrol responded.

White was later taken to his home in Green st. in a touring car after receiving medical attention. His condition was reported improved Wednesday morning.

White, it is alleged, when questioned, declared he had fallen down, although it was declared at police headquarters that it was believed White had been struck over the head.

White's status as a police officer is unknown. He was formerly merchant policeman for the entire body of merchants here but was later dismissed on charges of drunkenness and inefficiency. It was stated that White had also been dropped from the city payroll at the time. He was employed by several merchants later.

## The Gasoline Tax

It is pretty certain some efforts will be made when the legislature meets to write and pass a new law levying a tax on gasoline, funds thus raised to be used in caring for and maintaining the improved highways of the state. Various suggestions have been made of the rate of tax per gallon that ought to be fixed by the law. While some suggestions have been made that are unpopular and would force a hard fight, it is well and for the interest of the public to have as much discussion on the subject as possible in advance. If the public takes a part in the discussion and permits its opinions to reach the lawmakers there is far less danger that extreme provisions will be included in the law when it is written.

With about 600,000 motor vehicles in the state and the certainty that the number will be increased materially each year, there is a wide and fertile field for taxation, one that is of absorbing interest to the lawmakers when funds are needed. Because the field is so promising and a tax per gallon would raise so much money, there is a danger that an effort will be made to put the rate high. If those who may be delegated to write the new law will stop to think that a rate absurdly high is certain to raise a great fight and that 600,000 people, well organized, could make a fight that would endanger the passage of the bill, they may be moved to caution and be content to fix a rate of taxation that will not be particularly burdensome and will force no fight when the measure is put under consideration.

Automobiles of all kinds are pretty well taxed now, as the owners of these vehicles are well aware. They will be justified in opposing any new and burdensome taxes sought to be levied now. There are strong indications they would agree to a fairly reasonable rate of taxation, in fact might be expected to support and help secure the passage of such a measure. Taxes ought to be levied fairly and burdens distributed equitably. The members of the legislature will have an opportunity for some clear thinking and some constructive work in framing the bill.

## Christmas Reflections

It would be a wonderful thing for a disturbed world if some magician could make the spirit of Christmas day last for a year. Surely the people never needed a continuance of the Christmas atmosphere of generosity and good will as much as they need it now.

If hatred died with the haters the prospect would not be so dark. But it is passed on from age to youth; and second hand hatreds are sometimes more bitter than the thing from which they sprang.

On a festival which is particularly for children and which appeals in an ineffable way to those sentiments of ruen and women which have endured from childhood against sin and cynicism it is depressing to remember that through the fault of their elders the children of today may continue to feed the fires of hatred which circumstance kindled and which weak humanity has failed to quench.

Nor should one of hatred's various faces be distinguished from another. All are foul. The hate between nations; the hate within nations; the hates that spring from vengeance, from greed, from bigotry, from prejudice; hates of individuals, of sects, of states, of continents—all are hideous.

Considering the love, the cheer, the openhand giving that mark Christmas it is almost impossible to conceive the shadow of bitterness lasting against the glow of the Manger. Nor could it last if the followers of the Child of Bethlehem remembered that He was not for one day, but for all the days, and for all the world.

Lima—After Julius Roessner and his wife had made extensive preparations for the observance of Christmas, he and their three little children were left to mourn throughout the Christmas day. Mrs. Roessner was killed instantly when a train struck the auto in which she was a passenger.

4 Cups of Coffee a day for 9c a Week

The low cost of electricity has made possible in the average home many delightful refinements in dining.

Coffee-making, for instance. Coffee can still be made on the kitchen stove, of course. But making it at the table is just that little added nicety that lends such pleasure to one's meal.

The electric percolator makes better coffee, too; "percs" it just right and saves all the tiresome trips back and forth to the kitchen for reheating.

Nine cents worth of current a week makes your coffee at the table. See how cheap electricity is! Use more of it to increase the pleasure of living.

## Ohio Farmers Week Program I. Announced

The Farmers' Week program for 1923, as outlined today by H. C. Ramsower, director of extension at Ohio State university, includes 200 demonstrations, lectures, and recreational features; 13 annual meetings of State agricultural organizations; and six statewide shows of rural products. The dates are Jan. 29-Feb. 2.

"Every department of the college of agriculture has turned in its list of speakers," the director stated, "and the entire program is now being assembled. It will not be the largest program that we have ever had for a Farmers' week, as we have purposefully made efforts to cut down a little on the number of events, but I think it will be the best."

"We are trying to distribute the program more evenly throughout the week than has been the case in the past, and to avoid important and similar events coming at the same hour, and contending for interest. By measurably strengthening the closing days of the program, we hope better to serve the delegates to such annual meetings as those of the Ohio Farm Bureau Federation, which are in organization session on the earlier days of the week."

To Farmers' week last year came 6,124 country people, many of them spending the entire week at the university. Since 1920, Director Ramsower states, Ohio has held the largest such week of any university in the country, and therefore in the world.

## THEATRES

"Manslaughter" Cecil B. DeMille, accompanied by his production staff and several members of the cast, went to Santa Barbara for an exciting day's work on location in connection with the filming of "Manslaughter," which is presented at the State theater Wednesday Thursday.

The incident shown one of the most important in the story was the accident in which a motorcycle officer meets his death because of the careless and reckless driving of the chief feminine character in the story. On these scenes is built most of the subsequent story.

A dislocated shoulder, many bruises and several miles of valuable negative were the net results. The producer refused to use the customary dummy in this series of scenes. Hence the bruises and injured shoulder.

Leatrice Joy and Jack Mower were the principals engaged in the action, Thomas Meighan, Lois Wilson Edythe Chapman, Julia Faye, Dorothy Cumming, Casson Ferguson and the other members of the notable cast enjoyed a one day vacation in the absence of the producer.

## McGraw Is Seen As President Of New York Giants

New York, Dec. 27.—John McGraw is considering a proposition whereby he will assume the dual role of president and manager of the New York Giants, it became known today. In spite of all denials, Charles A. Stoneham, it seems, wishes to retire from baseball and the next step in this direction calls for McGraw to be placed in supreme command of Giants affairs at a salary commensurate with the importance and responsibility of the position.

Ultimately, this will mean the passing of McGraw as manager of the ball club. At present it means nothing. McGraw will continue as manager and Stoneham as principal stockholder of the club until such time as a change is deemed advisable.

The reason for this is both obvious and pressing. McGraw, Stoneham and Judge Francis X. McQuade bought the Giant franchise in 1919 on the basis of 1,379 shares each for McGraw and Stoneham and 70 shares for McQuade with McGraw and McQuade having a five-year option on Stoneham's holdings at the price he paid for them. It is understood that the entire deal was swung for \$1,900,000 but Sunday baseball and a sound development has increased the value of the club to such an extent that Stoneham is not at all anxious to sell until the option expires.

However, his business and racing interests are claiming his attention and the proposition that McGraw should assume the entire responsibility of running the club is in line with his desire to escape the claim that baseball exacts upon his time.

## Speedy Alumni Quintet Is Barred From High Game

When Salem High school floor quintet faces the Alumni five in the first practice game Thursday evening, it is reported that only alumni of the last three years will be permitted to stack up against Coach Vivian's proteges.

That will bar such men as Morris, Kelly, Read, Roebusch, Hutson and Seeds of the speedy 1917-18 team and in the opinion of those who have been following scholastic sports it will leave very little real opposition for the 1922-23 team.

It is to be regretted that the 1917-

18 players cannot be seen in action again for they could give this year's team the stiff practice that is needed before opening the regular schedule of the winter.

Alliance—At least one mail carrier was not forgotten in the Christmas rush, as the residents of his route presented him a large box in which he found donations of money amounting to \$130.

## A Happy New Year

This is the season when all of us wish all good things for every one. What better wish could we give each other than the wish for good health and happiness and long life?

Good teeth are necessary for good health. Good teeth are necessary for good digestion; happiness is largely a matter of good digestion. Long life depends upon good health and good digestion and good teeth.

Here's hoping that your good teeth will enable you to enjoy your New Year's dinner and that the day after will find you happy and contented, with another beautiful memory of a Happy New Year.

Who wants a long life burdened with toothache?

(Continued from first page.)  
ity in ordering the use of this building discontinued.

"There are a number of courses open for action on the part of you, board and we would like to see you post that immediate serious consideration be given to the requirements of our order."

"We are attaching a copy of this order and we would specifically call your attention to the compliance paragraph which requires that this building owing to its unsanitary, unsafe and unfit for human occupancy condition, is prohibited for use after Jan. 1, 1923."

The correspondence with the board of commissioners came direct from E. U. Whitaker, chief of division.

The state will insist that a new jail be built in this county sooner or later, and department heads have pointed out that to construct a new jail at a cost of \$150,000, and spread this cost over a period of 25 years, but seven-tenths of a mill per annum based upon the present tax duplicate would be required.

Money spent improving the present old jail will amount to naught in a few years, it is declared, as the wear and tear on the building will render it absolutely useless within a few years.

## LEETONIA NEWS

The Leetonia schools closed Friday for a two weeks vacation.

It has just been announced that Leetonia will have a new basketball team which has been named the Casey club. The club met Thursday evening and elected W. J. Woodward business manager and coach. The club will consist of older men than the high school team such men as J. D. Neihisel, J. A. McCue, E. J. Dean, R. A. Cavanaugh, Peter Cuff, F. J. Neihisel, and M. E. Gaughan.

A strenuous game of basketball was played at Kelly's park Friday evening between the Columbiana and Leetonia. Columbiana won by a score of 24-15.

The nominating committee of Parent-Teacher association submitted its report through Mrs. Galen Lodge at the meeting last week but owing to the small number present the election was postponed to the next meeting.

Miss Isabel Hardy, teacher of the third grade in the South Side school has given up her work and will leave in a few days for her home in Seattle, Wash., after spending several years in this vicinity, most of the time having been spent in the home of her sister and husband, Mr. and Mrs. Harry Gager, of Salem.

Mr. and Mrs. Donald Shontz and little daughters Dorothy and Frances May arrived from Columbus where Mr. Shontz is a senior at the O. S. U. and will spend the holiday vacation with their parents, Mr. and Mrs. W. S. Groner and Mr. and Mrs. C. K. Shontz.

Edward Royer of Columbus is spending several days over the holiday in the home of his parents, Mr. and Mrs. George Royer.

Mrs. C. M. Bixler and son Harry, of Conneaut, who spent several days with Mrs. Bixler's mother, Mrs. Amanda Crowell, who is quite ill, re-

turned to spend Christmas in their own home in Conneaut.

The Christmas party held Friday evening at the chapel parlors by St. Paul's Sunday school was a decided success as to number present and by way of program which consisted of numbers arranged for by each class and kept secret until presented, thus making the entire program a surprise, all classes responding but two.

Following the program the company was invited to the dining room where the children enjoyed the fish pond. All enjoyed the popcorn balls served by the committee on refreshments. I. F. Mellinger's class of young men received the heartiest applause for the best performance.

A number of neighbors and friends assembled at the home of Mrs. Ross McFadden (nee Miss Irene Abblett, recently and complimented her with a surprise shower of many lovely gifts. The hostess served a lunch during the hours of a pleasant evening. Mr. and Mrs. McFadden were

a bride and groom at Thanksgiving time.

The candy sale held on Saturday by the Standard Bearers of the M. E. church at the Taylor-Luce Hardware store proved a decided success financially.

Mrs. Rose Tapper having concluded a visit with her niece, Mrs. Jessie Griffith, returned to her home in New Milford.

## PASTEUR'S BIRTHDAY

(Continued from first page.)

tion was characteristic of the home and family.

She was intelligent, enthusiastic, imaginative. Her son was to be called "the most perfect man in the realm of science," and "the father of bacteriology." The father's education was stunted in youth, but he kept up his studies up to the time of his old age.

Louis Pasteur grew up in a wholesome atmosphere. His mother he worshipped, his father he idealized. He wrote of his father in a letter to his wife, "All day long I have been remembering the signs of my poor father's love. For over 30 years I was his most constant care. I owe everything to him."

Louis early learned to sacrifice for his sisters and when in college, rose at 5 a. m. in order to conduct classes in physics and mathematics, that he might make easy the education of his sisters. For teaching in this way, he received 300 francs a year, which he, in his gratitude, regarded too much.

To his sisters he wrote, "Work! love one another. Once you have got into the way of working you cannot live without it. Besides everything in the world depends on it." Here comes the depths of a great nature.

His wife was Marie Laurent, his inseparable companion, and successful collaborator. Of three daughters and one son only one daughter survived him, and she married Rene Valery Radot, who has written the fascinating production, "The Life of Pasteur."

His early training did not betray his later genius. He questioned certain statements in the text books, aroused the resentment of his teacher and was marked "mediocre." He became very homesick, and said to his roommate "I would be all right, if I could only smell the tannery at Arbois once more." He came home, of course. Then ashamed of his weakness gave himself so ardently to his studies, that he acquired the name of a "laboratory pillar."

Of his world-awakening discoveries and their application to human ills, more may be said later.
